

# VLS Desktop Series

## Laser Technology on Your Desktop

The VLS 2.30 and 3.50 desktop lasers are the easiest ways to get started with laser technology. Roughly the size of a printer, a VLS desktop laser packs sophisticated laser processing capabilities into an attractive, durable package. An optional computer-controlled air cleaner cart is available that allows a VLS desktop laser to be used without a dedicated exhaust system, making installation and operation even simpler. The ease of use and small footprint of the VLS desktop laser makes it easy to fit laser technology into your business, whatever it might be.

*Choice of five colors*

## Laser Technology Benefits

- ▶ **Software Controlled** - The laser can be controlled by any software with a print function.
- ▶ **Multi-Material** - Process an endless number of materials available today and in the future.
- ▶ **Multi-Process** - Cut, engrave, mark, and produce photo images in one step.
- ▶ **Non Contact** - Modify material without applying any physical force.
- ▶ **On Demand** - Produce everything you need in real time, without waiting for hard tooling.

## Uniquely Universal Features

- ▶ **ULR Laser Sources**  
Universal's patented air-cooled free-space gas slab lasers produce an excellent quality beam with even power distribution and good near- and far-field characteristics, making them ideal for laser material processing.
- ▶ **High Power Density Focusing Optics™**  
High Power Density Focusing Optics (HPDFO) allow the laser beam to be focused to a much smaller spot, making it possible to engrave smaller text and produce sharper images at tighter tolerances.
- ▶ **Laser Interface+™**  
This materials-based driver automatically determines the optimum processing settings for your target material. Just select the material type, enter in the material thickness, and start the laser system.
- ▶ **1-Touch Laser Photo™**  
1-Touch Laser Photo is a proprietary software package that makes it quick and easy to produce photographic images on nearly any material.

# System Specifications

	VLS2.30	VLS3.50
▶ Work Surface Area <sup>1</sup>	406 x 305 mm	610 x 305 mm
▶ Maximum Part Size <sup>2</sup>	476 x 370 x 102 mm	679 x 370 x 102 mm
▶ Dimensions	660 x 356 x 635 mm	864 x 356 x 635 mm
▶ Rotary Capacity	Max Diameter <b>127 mm</b> with <b>38.1 mm</b> lens Min Diameter <b>25.4 mm</b> with <b>50.8 mm</b> lens	
▶ Motorized Z Axis Lifting Capacity	9 kg	
▶ Available Focus Lenses	<b>38 mm</b>	<b>51 mm *standard</b>
▶ Laser Platform Interface Panel	Five button keypad	
▶ Operating System Compatibility	Requires a dedicated PC to operate. Compatible with Windows XP/Vista/7 – 32/64 bit	
▶ PC Connection	USB 2.0	
▶ Cabinet Style	Desktop	
▶ Optics Protection	Plumbed for compressed-air-based optics protection	
▶ Laser Options	10, 25, 30 Watts	10, 25, 30, 40, 50 Watts
▶ Approximate Weight <sup>3</sup>	32 kg	43 kg
▶ Power Requirements	110V/10A; 220V-240V/5A	
▶ Exhaust Connection	One 76 mm port 255 m <sup>3</sup> /hr at 1.5 kPa	One 76 mm port 425 m <sup>3</sup> /hr at 1.5 kPa

CDRH Class 1 safety enclosure for CO<sub>2</sub> laser<sup>3</sup>. Class 3R for red laser pointer.

<sup>1</sup> Work area varies by speeds and throughput

<sup>2</sup> Maximum part size defined as used with 1.5 lens

<sup>3</sup> CDRH Class 1 laser safety enclosure provides for safe operation without the need for an interlocked room or protective eyewear.
